

## Application packages

### FINISHING, COATINGS, SEALANTS, INKS, AND ADHESIVES

**TPX Package**  
Features a two-post ram, pump, follower plate and controls designed for high-viscosity applications when maximum down force is required. Available in 5- and 55-gal containers.

**SPX Package**  
Ideal for medium- to heavy-viscosity extrusion, ARO Fluid Product's single-post ram with pump, follower plate, and controls allows for easy container changeover while providing industry-leading down force during operation.

**CMX Package**  
Popular in airless spray applications, these packages feature a high-pressure pump, air control, material filter, and suction hose — all mounted on a heavy-duty cart.

**CLX Package**  
When portability is required for light- to medium-viscosity (less than 50K cPs) extrusion, our cart-mounted lift with follower plate allows for easy container changeover.

**ALX Package**  
Ideal for finishing and adhesive applications where you need to keep fluid mixed. Includes lift, drum cover, agitator, and air controls.

### LUBRICATION

**DCX Package**  
The ARO line of lubrication pumps can be configured with a drum cover and air controls for the transfer and supply of oil and grease.

**DMX Package**  
Same as DCX but this has a bung adapter to thread into container rather than a drum cover.

### BULK MATERIAL TRANSFER / CIRCULATION

**FMX Package**  
Ideal for fluid transfer from tanks and piping systems, pumps come with a floor-mountable stand to connect to inlet piping.

**WMX Package**  
The compact design of our piston pumps make them ideal for mounting on walls or appropriate structures. This package includes the pump and bracket for vertical mounting on structures.

### HIGH-PRESSURE CLEANING

**WPX**  
When it is time to clean up, our wash pump is a great high-power cleaning solution. Includes pump, wall mount bracket, suction tube assembly, and spray wand.

## Recommended accessories

Fluid Regulators

Material Filters

Extrusion Guns

Lubrication Meters

Siphon Hoses

Wet Sol® Packing Lubricants

ARO Stop Overrun Controls

High-Output Mufflers

Filter Regulators
